RULE: 34 – TERMINAL SCHEDULE

A. SCOPE (C)

This schedule/tariff is notice to the public that the provisions of this Tariff, including, but not limited to, the rates, charges, rules, and regulations contained herein, apply to all Facility Users, and are enforceable by an appropriate court as an implied contract without proof of actual knowledge of the provisions contained herein. The term “Facility User” shall mean any cargo interest, vessel owner or operator, ocean carrier (whether vessel operating or non-vessel operating), freight forwarder, broker, motor carrier, rail carrier, container lessor, or any other person or entity who use or benefit from use of the Terminal. Each Facility User shall be liable for noncompliance with the terms of this tariff by such Facility User's partners, officers, directors, agents, employees, invitees, contractors and/or subcontractors.

All activities conducted at the South Jersey Port Corporation (“Port Corporation”) marine terminals are governed by either the Port of Philadelphia Marine Terminal Association tariff (“PPMTA tariff”), or the South Jersey Port Corporation Tariff, in effect at the time the services are provided (“SJPC tariff”). Activities at any Port Corporation marine terminal conducted by, or under the direction of, Delaware River Stevedores (“DRS”) employee(s) and/or agent(s) are governed exclusively by the PPMTA tariff, including the applicable rates provided therein. Activities at any Port Corporation marine terminal performed by, or under the direction of the Port Corporation or its employees or agents, will be governed by the PPMTA tariff for those categories of rates and services are not found in the SJPC tariff.

All activities conducted at the Tioga Marine Terminal are governed exclusively by the PPMTA tariff.

For services provided at the Port Corporation marine terminals, this tariff serves to memorialize the allocation of services provided by the Port Corporation and DRS, respectively. Port Corporation and DRS services will be allocated as follows:

Port Corporation:

- Wharfage and Dockage and Port Security Fee
- Terminal Services, including handling of cargo between point of rest and terminal, storage, load out.

DRS

- Stevedoring
- Cargo handling and Clerking between vessel and point of rest
- Clerking on load out

This list is not exhaustive of all services provided.

Regardless of the nature of the work or services performed at any Port Corporation marine terminal, the Port Corporation’s liability shall be governed by the most favorable liability provisions included in the PPMTA and SJPC tariffs, including but not limited to the limitation of liability provisions. Additionally, the Hot Work and the Notice of Claim Provisions included in

the SJPC tariff are hereby incorporated by reference into the PPMTA tariff and thereby made applicable to activities conducted at the Port Corporation Marine Terminals and Tioga Marine Terminal. These Hot Work and Notice of Claim Provisions are attached as Exhibit “A.”

This Schedule does not cover West Coast Lumber or Military Cargo at any of the above terminals.

ITEM 102: Ad Valorem Clause and Limitation of Liability (C)(I)

The Terminal Operator, and Stevedore for the services performed under this Schedule, assume no liability for any losses, injury or damage or non-delivery or mis-delivery or cross-delivery to freight or cargo handled or transshipped through the Terminal, including, but not limited to loss or damage caused in whole or in part by strike, fire, water, actions of the elements and weather, theft, *force majeure*, act of public authority, act of public enemy, riot, civil commotion, war or act of war or any other similar cause, or for any loss from causes beyond its control. Under such conditions, Terminal Operator and Stevedore may suspend or reduce services without responsibility for any claim by vessel or others arising out of such circumstances.

The Terminal Operator and/or Stevedore shall be liable only for loss or damage resulting from its failure to exercise ordinary care in performing the services and affording the facilities or any other activities or goods that a Terminal Operator or Stevedore provides in servicing the Facility User/customer's needs provided for herein. No provision contained in this schedule shall limit or relieve the Port of Philadelphia Marine Terminal Association, Terminal Operator, or Stevedore from liability for its own negligence nor require any person, vessel or lessee to indemnify or hold harmless the Port or Philadelphia Marine Terminal Association, Terminal Operator, or Stevedore from liability for its own negligence.

IN NO CASE, SHALL TERMINAL OPERATOR OR STEVEDORE, BE LIABLE FOR DAMAGE, LOSS, NON-DELIVERY, MIS-DELIVERY OR CROSS DELIVERY IN EXCESS OF USD\$500.00 PER PACKAGE, OR NONPACKAGED OBJECTS OR UNIT, UNLESS THE SHIPPER, CONSIGNEE, TRUCKER, RAILROAD OR OTHER INLAND CARRIER, OR THEIR REPRESENTATIVES, PRIOR TO COMMENCEMENT OF SUCH SERVICES, OR USE OF SUCH FACILITIES, DECLARES A HIGHER VALUE AND PAYS TERMINAL, IN ADDITION TO THE OTHER CHARGES FOR SUCH SERVICES, A PREMIUM AS NEGOTIATED BETWEEN THE PARTIES.

In no event will the premium be less than 1% of the declared value. In such event, Terminal shall be liable for the full declared value of each such package or non-packaged object or unit for damage resulting from its failure to exercise due and proper care in performing the service or affording the facilities provided for here. Any increased declarations of value must be in writing and the applicable premium paid.

The term "package" shall include any van, ocean-going or over the road shipping container or other form of cargo utilization packaged for transportation, including if lashed on skids or pallets. The term "package" shall refer to the largest unit of cargo being handled. The term "non-packaged objects or unit" shall include, but not be limited to, individual steel plates, pipes and similar objects that are not connected, bound to or packaged with other like items; vehicles; machines; engines; generators; cranes; tractors; heavy, farm, earthmoving and construction equipment; and like items, even if these objects or units are covered, concealed or prepared in some manner to facilitate handling or transportation, or have protective materials attached. In all events, the Terminal Operator and Stevedore's maximum liability will be limited to a maximum of \$500 for each "non-packaged object or unit" damaged or lost.

Since no attempt is made by the Terminal Operator or Stevedore to supply any protection from the elements, the Terminal Operator and Stevedore accept no liability or responsibility for any loss or damage that may occur to the cargo remaining on the Terminal at any time, nor for injuries, damages, or delays caused by equipment, cranes, and/or operators of same leased by the Terminal Operator or Stevedore.

The remedies provided herein are exclusive and in lieu of all other remedies and the Terminal Operator's and/or Stevedore's liability referred to in this Schedule shall be the exclusive remedy against it/them for any claim or cause of action whatsoever relating to loss, damage and/or destruction of freight, cargo and/or goods, and shall apply to all claims including inventory shortage and mysterious disappearance unless the Facility User/Customer and/or others making claim, proves by affirmative evidence that the Terminal Operator or Stevedore converted the freight, cargo or goods to its own use. Those making claim, for such loss waive any rights to rely upon any presumption of conversion or negligence imposed by law.

THE TERMINAL OPERATOR AND STEVEDORE MAKE NO WARRANTY OF ANY KIND, EXPRESS OR IMPLIED (INCLUDING WARRANTY OF WORKMANLIKE PERFORMANCE OR SERVICE) AND SPECIFICALLY DISCLAIM THE APPLICATION OF THE WARRANTY OF WORKMANLIKE PERFORMANCE OR SERVICE, AND ANY DUTY OR THEORY OF STRICT LIABILITY OR ABSOLUTE LIABILITY FOR LOSS OR DAMAGE TO VESSELS, LIGHTERS, BARGES, TRUCKS, VEHICLES, CARGO OR GOODS, OR FOR SERVICES PERFORMED.

Under no circumstances will the Terminal Operator or Stevedore be liable for any type of vessel charges, including demurrage, delay, truck demurrage, rail demurrage, barge demurrage, detention, or waiting time.

Terminal Operator and Stevedore assume no responsibility and shall not be liable for incidental, special, punitive or consequential damages.

Under no circumstances shall the Terminal Operator or Stevedore be liable for spoilage of cargo within a reefer container which is in their care, custody and/or control caused by an electrical shortage/outage or the failure or malfunctioning of the reefer container itself or its refrigeration systems, as well as any failure of the electrical plug located at the Terminal Operator's facility.

Terminal Operator and Stevedore expressly disclaim that it is a common carrier or the application to it, its employees or agents of any duty applicable to a common carrier or based upon any theory of strict liability.

Acceptance for use of any facility owned or operated by Terminal Operator is an acknowledgement that the terminal is fit and proper for the dockage of the vessel and the receipt and/or storage of the cargo and is a recognition that the cargo landed or contained in such facilities is at the risk and expense of the cargo owner. Any funds owed to Terminal Operator or Stevedore for services cannot be withheld to offset or satisfy claims against the Terminal Operator or Stevedore for loss of damages.

Any carrier docking at the facility agrees that the terms of the bills of lading or other contract of carriage applicable to the transportation of the cargo will afford the Terminal Operator,

Terminal, and Stevedore of all defenses available to the carrier, including but not limited to the defense of the one-year for time for suit provision afforded under the United States Carriage of Goods by Sea Act and the \$500.00 per package limitation for loss or damage. In the event that the Bill of Lading does not include such protective provisions then it is agreed that the rights of the cargo owner, and the vessel owner or charterer, consignee and or their agents against the Terminal and Stevedore are waived and such parties accept that such a provision will be applicable as if the limitation was present in the Bill of Lading or other contract of carriage.

Terminal Operator and Stevedore will be entitled to the lesser of the limitation of damages provide in this Terminal Schedule, or as provided in the carrier's bill of lading or other contract of carriage, whichever is less.

In instances where the Terminal Operator or Stevedore is acting as a warehouseman and/or is storing or handling the goods, other than when engaged in stevedoring, notwithstanding, the \$500.00 per package limitation referenced above, this Schedule shall act as the handling/storage agreement for the goods and in the event of loss, damage or destruction to goods for which the Terminal Operator or Stevedore is legally liable, the Terminal Operator's liability shall be limited to the lesser of the following: (1) the actual cost of replacing, or reproducing the lost, damaged, and /or destroyed goods together with transportation costs to warehouse, (2) the fair market value of the lost, damaged and/or destroyed goods on the date of the loss or the date notification of the loss, damage or destruction is made, whichever is less, (3) 10 times the monthly storage charge applicable to such lost, damaged and/or destroyed goods, (4) \$0.10 per pound for said lost, damaged, and/or destroyed goods, not shipped or stored in bulk; (5) \$10 per long ton for bulk cargo, or (6) \$10 per package or non-packaged unit. Provided, however that if the Facility User/customer, shipper, consignee, trucker, railroad, or other inland carrier, or their representatives, prior to the commencement of such services, or within a reasonable time from when the goods are delivered to or received by Terminal Operator declares a higher value and pays to the Terminal Operator, in addition to the other charges for such services as herein set forth, a premium computed at one percent (1%) of the declared value of each package or non-packaged object, the Terminal Operator shall be liable for the full declared value of each such package or non-packaged object for damage resulting from its failure to exercise due care in performing the services or affording the facilities provided for herein.

As a condition precedent to making any claim and/or filing any suit, Facility User shall provide Terminal Operator and Stevedore with a reasonable opportunity to inspect the goods which are the basis of the claim.

Disputes with Terminal Operator and/or Stevedore shall be governed by the laws of the state where the Terminal is located, without regard to conflict of laws provisions, unless preempted by federal maritime law. Any claim or dispute you may have against the Terminal Operator and/or Stevedore shall be exclusively resolved only by a court of competent jurisdiction located

in the county where the Terminal is located, to the exclusion of all other courts and jurisdictions. Facility User/Customer explicitly submits itself to the personal jurisdiction of this court.

Unless an express notice of loss, non-delivery, mis-delivery, cross-delivery and/or damage, along with a description of the general nature of such loss, non-delivery, misdelivery, cross-delivery or damage is given in writing to the Terminal Operator and Stevedore at the time of the removal of the goods, or at the time the goods should have been removed into the custody of the person entitled to delivery thereof, the removal shall be *prima facie* evidence of delivery of the goods by the Terminal Operator and/or Stevedore in good order and condition, or in the order and condition as noted on the delivery documents. Should the loss, non-delivery, misdelivery, cross-delivery or damage not be apparent, the above notice must be given in writing to the Terminal Operator and/or Stevedore within three (3) days of the date of delivery or the date the goods should have been delivered.

NO LAWSUIT OR OTHER ACTION MAY BE MAINTAINED BY FACILITY USER/CUSTOMER OR OTHERS AGAINST TERMINAL OPERATOR OR STEVEDORE WITH RESPECT TO THE GOODS UNLESS A CLAIM HAS BEEN FILED WITH THE TERMINAL OPERATOR AND/OR STEVEDORE WITHIN 90 DAYS FROM RECEIPT OR DELIVERY OF THE CARGO BY THE TERMINAL OPERATOR OR STEVEDORE, OR ACTUAL NOTICE OR KNOWLEDGE OF LOSS OR DAMAGE TO THE CARGO, WHICHEVER IS EARLIER AND UNLESS FACILITY USER/ CUSTOMER HAS PROVIDED TERMINAL OPERATOR WITH A REASONABLE OPPORTUNITY TO INSPECT THE GOODS AS PROVIDED IN THIS SECTION AND UNLESS SUCH LAWSUIT OR OTHER ACTION IS COMMENCED WITHIN NINE (9) MONTHS AFTER FACILITY USER/CUSTOMER LEARNS OF, OR IN THE EXERCISE OF REASONABLE CARE, SHOULD HAVE LEARNED OF THE LOSS, INJURY, OR DAMAGE OR NON-DELIVERY OR MIS-DELIVERY OR CROSS-DELIVERY TO THE GOODS. THE FORM OF NOTICE GIVEN SHALL BE IN THE FORM ATTACHED HERETO.

CLAIMS AGAINST THE SOUTH JERSEY PORT CORPORATION

The Port Corporation is an agency of the State of New Jersey and its liability is governed by the New Jersey Tort Claims Act. N.J. Rev. Stat. § 59:1 – 1 *et seq.* To the extent this Schedule and the Act may be inconsistent, the Act shall be controlling except as to the limitation of liability provisions, for which the terms of this Schedule shall be applied.

ITEM 103: Open Piers

Acceptance for use of an open pier by a stevedore, vessel charterer or owner, or receiver of goods, is a recognition of an implied fact that cargo landed on such pier is at the risk and expense of the cargo owner. Since no attempt is made by the Terminal Operator or Stevedore to supply any protection from the elements, the Terminal Operator and Stevedore accept no liability or

responsibility for any loss or damage that may occur to the cargo remaining on the pier at any time, nor for the injuries, damages, or delays caused by equipment, cranes, and/or operators of same leased by the terminal. (Subject to Rule 34.1, Item 109 herein.)

ITEM 104: Terminal Not Public Thoroughfare and Authorized Personnel

The Terminal property is not a public thoroughfare and all persons, equipment, or vehicles entering thereon do so at their own risk. The terminal reserves the right to refuse admittance to the Terminal and to require the removal from the premises of any person, equipment, or vehicle for any reason whatsoever.

Only authorized personnel possessing a Transportation Worker Identification Credential (TWIC) card engaged in Port and vessel related activities are permitted within fenced areas of the Terminal.

ITEM 105: Shipper's Requests and Complaints (C)

Shipper's requests and complaints shall be promptly and fairly considered by the Association provided that they are first submitted in writing to Secretary or the Association at the Address listed below:

Stephen J. Galati, Secretary
Port of Philadelphia Marine
Terminal Association
Federal Reserve Bank Building
100 N. Independence Mall West,
Suite 5A, NW
Philadelphia, PA 19106
(215) 629-1600

ITEM 106: Cargo Without Dock Receipt

Cargo that arrives at a terminal without a dock receipt shall not be accepted. It shall be the responsibility of the Carrier, or other agent for the cargo, to present a dock receipt to the terminal operator before any service is performed.

ITEM 107: Hazardous Cargo

In order to comply with U.S. Department of Transportation regulations (CFR 49 Parts 100-199, particularly Part 172), the following data is required for delivery of hazardous cargoes to the terminals in the Philadelphia area.

- (1) Complete shipper's name and address, and where possible the telephone number for emergencies.

- (2) Carrier's name and address.
- (3) Complete consignee's name and address, which should include the overseas port of destination on exports.
- (4) Proper DOT shipping name. This is the technical name of the chemical involved and such must be as listed in the Code of Federal Regulation Title 49-Part 172.101. Use an applicable description in 172.200 through 172.203.
- (5) Hazardous class of the material being shipped.
- (6) Kinds and number of containers and individual weights or total weight.
- (7) Labels required.
- (8) Shipper's certification. A shipper's certification must appear on every Bill of lading or shipping document provided. The correct wording of this certification is as follows:

THIS IS TO CERTIFY THAT THE ABOVE-NAMED MATERIALS
ARE PROPERLY DESCRIBED, CLASSIFIED, PACKAGED,
MARKED AND LABELED, AND ARE IN PROPER CONDITION
FOR TRANSPORTATION ACCORDING TO THE APPLICABLE
REGULATIONS OF THE DEPARTMENT OF TRANSPORTATION.

This certification is to be accompanied by a legible signature of the person certifying the same.

- (9) Properly documented special instructions, exceptions, or exemption information, if required.

All of the above must be complied with or the shipment will not be received by the terminal operators who are members of this Association.

ITEM 108: Services Not Otherwise Provided For

Nothing contained herein shall be construed as requiring a Terminal Operator or Stevedore to perform without charge any service not specifically provided for herein. The charge for any such service shall be mutually agreed upon.

ITEM 109: Verified Actual Gross Mass

Those utilizing the Terminal Facilities and/or shipping cargo through the Terminal Facilities in a container subject to the SOLAS Container Weight Verification Requirements, warrant to the Terminal Operator and Stevedore that the full container weight has been verified in accordance with the requirements of the law/ regulation, and, in the event there is any failure to comply with the law/regulation, will defend, indemnify and hold harmless the Terminal Operator and Stevedore from the consequences of the failure to comply with the law/regulation. Terminal Operator and Stevedore reserve the right, but not the obligation, to refuse to handle or load a container for which it reasonably believes the requirements of the law/regulation have not been met. Notwithstanding the above, the Terminal Operator and Stevedore by loading a container onto a vessel does not warrant that the requirements of the law/regulation has been met.

ITEM 110: Liens and Costs of Collection (C)

Any and all services performed on the terminal, or by Terminal Operator and/or Stevedore, including interest on unpaid service, shall give rise to a lien in favor of Terminal Operator and Stevedore against the vessel, container, chassis, cargo, or any other tangible or intangible property whatsoever (the "Collateral"). Terminal Operator and Stevedore shall have lien on Collateral even where the Collateral is not within their custody or control. Terminal Operator's and Stevedore's lien shall also extend to other property of the Facility User/Customer, even if the unpaid obligations and/or charges are in relation to other goods, and including to satisfy unpaid obligations both with respect to Collateral or with respect to other services and property.

Facility User/Customer agrees that all invoices are due and payable upon presentation. Further, Facility User/Customer agrees to pay LATE CHARGES which are computed at the rate of TWO PERCENT per month (24% per annum) applied to all invoices that are dated prior to one full monthly accounting cycle. Should collection become necessary, Facility User/Customer agrees to pay a COLLECTION FEE equal to ONE THIRD (1/3) of all invoice balances plus late charges, court costs and other expenses that may be expended by Terminal Operator, and/or Stevedore and/or its attorneys during the collection process. In any event, the minimum fee shall be One Thousand Dollars (\$1,000.)

ITEM 111: Responsibility For Damages To Terminal And Equipment

Facility Users/Customers shall be responsible for all damage resulting from the use of Terminal Operator's and Stevedore's property and facilities. Terminal Operator and Stevedore reserve the right to repair, replace, or contract for the same, or otherwise cause to be replaced or repaired, any and all damages to the Stevedore's equipment and terminal property and facilities including damages to docks, piers, bulkheads, wharves, cargo, containers, and their contents if loaded; equipment, rail, shop facilities, water, heat, light, etc., and hold any relevant Facility User or any

other party or parties that may be in any way considered responsible for the damages liable for payment of damages, together with all interests, costs and attorney's fees that may be incurred in the collection of the damages. Terminal Operator and Stevedore may detain any vehicle, common carrier, vessel, water craft, etc., that it may consider responsible for any damage to the facilities until sufficient security has been given to cover all damages, interest, costs and attorney's fees.

ITEM 112: Payment Of Charges And Extension Of Credit

All charges for services rendered under this Terminal Schedule will be invoiced to the applicable Facility User as determined by Terminal Operator and Stevedore. Invoices covering charges as issued are due and payable upon presentation. Any invoice remaining unpaid for 15 days after the invoice date will be delinquent and interest shall accrue on such outstanding amounts at the lesser rate between the cumulative rate of 1.5% per month and the highest interest rate permitted under the applicable law of the state in which the terminal is located. Should collection become necessary, Facility User/Customer agrees to pay a COLLECTION FEE equal to ONE THIRD (1/3) of all invoice balances plus late charges, court costs and other expenses that may be expended by Terminal Operator, and/or Stevedore and/or its attorneys during the collection process. In any event, the minimum fee shall be One Thousand Dollars (\$1,000). Unless otherwise specifically agreed, cargo will not be received, handled or delivered unless charges are prepaid or credit has been established.

The applicable Facility Users shall be required to permit access to manifests, loading or discharge lists, rail or motor carrier freight bills or other pertinent documents for the purpose of audit to determine the correctness of reports filed or for securing necessary data to permit correct billing of charges.

ITEM 113: Billing Disputes

Questions regarding the validity of invoices or charges in dispute must be submitted in writing to Terminal Operator and Stevedore within ten (10) days after the presentation of the invoice. Invoices not disputed in writing within this ten (10) day period will be deemed accepted without dispute by the invoiced party. In the case where an invoice is in dispute in part, the undisputed amount of the invoice is to be paid in full.

ITEM 114: Force Majeure

Item 114(a) Definition

“Force Majeure” means any cause or event reasonably beyond the control of the Parties, including (but without limiting the generality of such term): act(s) of God, perils of the sea, fire, delay of the performing vessel arising from breakdown or adverse weather, accidents at, closing of, or restrictions upon the use of mooring facilities, docks, ports, pipelines, harbors, railroads, or other navigational or transportation mechanisms, natural disasters (such as violent storms,

cyclones, earthquakes, tidal waves, floods, destruction by lightening), war (declared or undeclared), military operations, blockade, revolution, riots, acts of piracy, acts of sabotage, disruption or breakdown of or explosions or accidents to wells, storage plants, refineries, pipelines, terminals, machinery or other facilities, trade restrictions, strike, lockouts, or a dispute or difference with workers, labor shortage requests, good faith compliance with any orders or actions, whether voluntary or involuntary, of any Government Authority, or by any Person purporting to represent a government, whether lawful or otherwise, or any other cause of a similar nature as described herein not reasonably within the control of the respective Parties.

Item 114 (b) Effect of Force Majeure. (C)

A Party shall not be liable if it is delayed, hindered, interfered with, curtailed, prevented or rendered unable by an event of Force Majeure from performing in whole or in part any obligation or condition under the Tariff or other agreement in effect (except for any payment and indemnification obligations), for so long as the event of Force Majeure exists and to the extent that performance is hindered by the event of Force Majeure; provided, however, that it shall use commercially reasonable efforts to avoid or remove the event of Force Majeure. Notwithstanding the foregoing, it shall not be compelled to resolve any strikes, lockouts or other industrial disputes other than as it shall determine to be in its best interests. During the period its performance of its obligations under the Tariff or other agreement has been suspended in whole or part by reason of an event of Force Majeure, the Facility User/Customer likewise may suspend the performance of all or part of its obligations to the extent that such suspension is commercially reasonable, except for any payment and indemnification obligations arising prior to the occurrence of such Force Majeure event.

Item 114 (c) Notice.

If the event of Force Majeure delays, hinders, interferes with, curtails, prevents or renders unable either Party, in whole or in part, to carry out its obligations under the Tariff or other agreement in effect, such Party must give the other Party notice and reasonable detail in writing as soon as practicable after the occurrence of the causes relied upon, or give notice by telephone and follow such notice with a written confirmation within forty-eight (48) hours.

Item 114 (d) Termination.

In the event that the period of total suspension due to a Force Majeure event shall continue in excess of thirty (30) consecutive days from the date that notice of such event is given, and so long as such event is continuing, either Party, in its sole discretion, may terminate such affected transaction by written notice to the other Party, and neither Party shall have any further liability to the other Party in respect of such transaction except for the rights and remedies previously accrued.

ITEM 115: Safe Berth/Approach

Terminal Operator will exercise ordinary care to provide a safe berth and safe approach to the berth, but does not warrant or guarantee a safe berth or a safe approach to its berth. The vessel shall be considered in the berth's approach only when it is making its final direct approach to the

berth from the edge of the navigable channel maintained by the U.S. Army Corps. of Engineers ("navigable channel") most closely adjacent to the face of the berth, or at the location where duly licensed docking pilots normally exit the navigable channel to dock at the berth with vessels of similar size and configuration. Notwithstanding, the approach to the berth begins no further than one ship's length from the face of the terminal wharf. A vessel shall not be considered to be in the approach to the berth unless it is under the control of a licensed docking pilot and in the process of docking or undocking. Upon exiting from the berth, the vessel shall no longer be considered to be in the approach/exit once it reaches a distance of one ship's length from the face of the Terminal wharf or the navigable channel, whichever is closer.

ITEM 116: GOVERNMENT AND/OR MILITARY CARGO

The terms of this tariff shall not apply to Military Cargo. Where commodities are moved or handled for the Military Surface Deployment and Distribution Command, or other U.S. Government or Military agency, under a Stevedoring and Related Terminal Services Contract, or similar contract (S&RTS), the terms of the S&RTS shall apply, with this Terminal Schedule having no force and effect.

ITEM 117: INDEMNITY AND DEFENSE (C)

1) Every Facility User/Customer shall defend (using legal counsel acceptable to the Terminal Operator and Stevedore), indemnify, and hold harmless the Terminal Operator and Stevedore from and against, and reimburse the Terminal Operator and Stevedore for, any and all actual or alleged claims, damages, expenses, costs, fees (including, but not limited to, attorney, accountant, paralegal, expert, and escrow fees), fines, and/or penalties (collectively "Costs") which may be imposed upon or claimed against or incurred by the Terminal Operator and/or Stevedore and which, in whole or in part, directly or indirectly, arise from or are in any way connected with any of the following:

- a. Any act, omission, or negligence of the Facility User;
- b. Any use, occupation, management, or control of any portion of the Terminal by the Facility User, whether or not due to the Facility User's own act or omission and whether or not occurring at the Terminal;
- c. Any breach, violation, or nonperformance of the regulations, rules, and terms of this tariff, including any Costs associated with claims that the Facility User hindered, delayed, disrupted, damaged or otherwise interfered with the operations or property of the Terminal Operator, Stevedore or any other Facility User;
- d. Any damage caused by the Facility User on or to the Terminal facility or other property within the Terminal; or

e. Any spill, release, or discharge of pollution, invasive species, or hazardous materials into the air, land, groundwater, surface water or sediments at or in the vicinity of any of the Terminal that are associated with or relate to, or are caused by, the Facility User, including but not limited to the Facility User's vessels, equipment, or operations.

ITEM 118: INSURANCE

1) Charges published in this Schedule do not include any expense of fire, storm, or other cargo insurance covering the owner's interest in the cargo nor will such insurance be provided by the Terminal Operator or Stevedore under their policies.

2) Every Facility User and any other party using the Terminal shall obtain and maintain insurance in the type applicable to cover bodily injury and property damage arising out of their work at or upon the Terminal. The following is the minimum insurance coverage that must be secured:

a. Workers' Compensation Insurance (Including Longshoremen & Harbor Workers Act, if applicable). This coverage is required under federal and state statutes for all the Facility User's or other party's employees performing their work.

b. Employer's Liability and Maritime Employer's Liability (including Jones Act coverage for masters and members of crew), as applicable, in an amount not less than \$2,000,000 per occurrence.

c. Commercial General Liability including coverage for products/completed operations and personal and advertising injury and/or Comprehensive Marine General Liability, Stevedore's Liability, Protection and Indemnity, Charterer's Legal Liability, and any other insurance required by state and federal law, as applicable, with separate limits in an amount not less than \$5,000,000 for each coverage, on a per occurrence basis. Coverage should include liability assumed under contract; broad form property damage covering property in the insured's care, custody and control; and coverage for claims for bodily injury, personal injury, death or property damage occurring on, in or about any vessels being loaded or unloaded by a Facility User or other party at the Terminal and other adjoining areas.

d. Automobile Liability, including owned and non-owned vehicles with a \$2,000,000 per person limit for bodily injury, a \$2,000,000 limit per incident and a property damage limit of \$2,000,000 per incident.

e. Pollution Legal Liability of \$3,000,000 per loss and \$6,000,000 annual aggregate.

f. Any insurance not otherwise mentioned hereunder which is customary and/or reasonable in the Facility User's or other party's business, in amounts that are reasonable under the circumstances.

g. Every party shall submit to the Terminal Operator and Stevedore, upon request, certificates of insurance as evidence of the required coverage. Such insurance shall provide that the Terminal Operator and Stevedore are to be given thirty (30) days' prior written notice of any cancellation. Such insurance shall be primary, and shall not seek contribution from any insurance or self-insurance carried by the Terminal Operator and/or Stevedore. Failure of the Terminal Operator or Stevedore to request the proof of insurance as required herein, or to notice discrepancies in the evidence submitted, shall not excuse a party from the insurance requirements of this Tariff.

ITEM 119: LIMITATION OF LIABILITY TO VESSELS AND INDEMNITY FROM VESSELS AND CARGO INTERESTS (C)

For purposes of this Item, "vessel(s)" shall mean ships, boats, barges or water craft of any kind or description.

All vessels delivered to the Terminal Operator or Stevedore for loading and/or unloading or which are berthed at the Terminal Operator's facility are subject to the following terms and conditions.

Delivery of a vessel to the Terminal constitutes acceptance of these terms and conditions by the owner, charterer, manager and/or operator of the vessel, the party delivering the vessel, the party ordering its delivery and/or the party ordering its loading/unloading by the Terminal Operator or Stevedore.

1) Acceptance of the Terminal

a) The design, construction, condition and fitness of the terminal and its appurtenances, including bollards, cleats, and other mooring devices, fenders and structures are open and obvious and delivery of a vessel to the Terminal constitutes acceptance and approval of the design, construction, condition and fitness by the owner, charterer, manager and/or operator of the vessel, the party delivering the vessel, the party ordering its delivery and/or the party ordering its loading/unloading by the Terminal Operator or Stevedore.

b) The owner, charterer, manager and/or operator of the vessel, the party delivering the vessel, the party ordering its delivery and/or the party ordering its loading/unloading by the Terminal Operator or Stevedore, shall be strictly liable for all

damages caused to the pier structure or its appurtenances, including fenders, bollards, cleats and other mooring devices directly caused by the vessel or vessel operations, or occurring as a result of or by virtue of the vessel's presence at the Terminal and/or the loading or discharging of cargo at the terminal.

2) Limitation of Liability as to all Vessels and Indemnity from Cargo Interests for Damages Caused by Insufficiency of Packing or Other Fault:

a) In no event shall the Terminal Operator or Stevedore be liable for any damage to vessels or cargo in the loading, off-loading and/or unloading of cargo and all handling incident thereto that is caused directly, or indirectly, in whole or in part, by insufficiency in the loading, stowage, packing, and/or packaging of the cargo and/or failure to supply proper handling instructions for the cargo or other negligence, fault, or breach of contract or warranty. The shipper, consignor, consignee and cargo owner shall defend, indemnify and hold harmless the Terminal Operator and Stevedore, their officers, agents and employees and all related entities and their officers, agents and employees from and against any and all claims, demands, actions, losses, and damages, including, but not limited to, claims for personal injury or death, claims for loss of or damage to vessels, and claims for property loss or damage of any kind or description, including, but not limited to, pollution or environmental damage, and all expenses, including attorney's fees and costs, arising from or in any matter related to any such claims, demands, actions, losses, and damages caused by or related to improper loading or stowage, insufficiency of packing or packaging of the goods for loading, off-loading, unloading, and/or storage and all handling incident thereto and failure to supply proper handling instructions for the cargo and any other fault, negligence, or responsibility of shipper, consignor, consignee and cargo owner.

b) The Terminal Operator and/or Stevedore shall not, in any event, be or become liable for any loss or damage to vessels in an amount exceeding the lesser of the amount charged by the Terminal Operator for the stevedoring services or the actual costs of repairs to the vessel. In no event shall the Terminal Operator or Stevedore be liable for any damage to vessels unless said damage results solely from the failure of the Terminal Operator to exercise due care in performing the services contracted for.

c) The Terminal Operator and Stevedore shall not in any event be responsible for special or consequential damages, including without limitation damages for or arising from delay, extra expense, loss of sale(s), loss of contract(s), loss of charter, loss of hire, loss of profits, loss of market value, and loss of use whether resulting from negligence, breach of this Contract by the Terminal Operator or Stevedore, failure to discharge cargo, delay in discharge of cargo, damage to vessels, and any other cause, and even if the possibility of such special or consequential damages or damages from delay were

foreseeable to the Terminal Operator or Stevedore or were made known to the them. Under no circumstances will the Terminal Operator or Stevedore be liable for any type of vessel demurrage, or waiting time.

3) Indemnity from Facility User and Vessels:

a) The Facility User, and vessel and her owner(s), charterer(s), manager(s), and/or operator(s) shall be responsible for and shall defend, indemnify and hold harmless the Terminal Operator and Stevedore, their officers, agents and employees and all related entities and their officers, agents and employees from and against any and all claims, demands, actions, losses, and damages, including but not limited to, claims for personal injury or death, claims for loss of or damage to cargo, and claims for property loss or damage of any kind or description, including, but not limited to, pollution and/or environmental damage and damage to property of the Terminal Operator and/or Stevedore, and all expenses, including attorney's fees and costs, arising from or in any manner related to the negligence or fault of the Facility User, the negligence or (un)seaworthiness of the vessel and/or her crew and/or the failure of the vessel's equipment, machinery, and/or appurtenances, and defects and deficiencies in the cargo or its packaging, or arising from the inherent nature of the cargo/goods, including its hazardous nature, but nothing herein shall relieve the Terminal Operator or Stevedore from liability for its own negligence or impose upon any other party the obligation to indemnify or hold harmless the Terminal Operator or Stevedore from liability for its own negligence.

which enables the pier operator through the use of a fork lift truck and operator only to place, or remove, cargo onto or from the tailgate of a truck. Tailgate loading shall also be defined as such when, through the use of the pier operator's platform or by removal of stakes or standards of flatbed equipment, the fork lift operator is able to place the cargo either at a point of rest on the truck or in a position for further handling by personnel of the motor carrier. Note I: The choice of partial or full loading and/or unloading shall be left to the discretion of the motor carrier, shipper, or consignee, provided the service requested comes within the provisions of this definition. (These provisions shall not be construed as compelling the Terminal Operator to provide pallets.)

Note II: For full truck loading and unloading services, the Terminal Operator must be notified by 3:00 p.m. the day before a full work order is requested; otherwise the necessary labor may not be available for these services.

The cargo must be loaded in such a manner as to cover the loading surface of the pallet, leveled at the top and squared on all four sides so that the unit forms a smooth block. The pallet must be an integral part of the cargo and must remain with the cargo when it is moved either as an export or an import shipment. Any palletization performed on the pier does not qualify for the pre-palletized rate. In order to qualify for the pre-palletized rate, the minimum weight or measurement of the pallet, and cargo shall be either 1,000 pounds or 64 cubic feet, and the maximum weight shall be 10,000 pounds.

No trucker, shipper, or consignee shall be permitted to perform any truck loading or unloading until such certificate has been filed with the Secretary. All mechanical loading or unloading equipment brought upon the pier by the trucker, shipper, or consignee shall meet the Coast Guard requirements.

SOUTH JERSEY PORT CORPORATION Hot Work Safety Program

OBJECTIVE:	To establish minimum requirements for performing hot work during maintenance and construction activities.
AUTHORITY:	NFPA 51B, USCG Designated Waterfront Facility - 33CFR126.
POLICY:	All employees, volunteers, tenants, and contractors shall comply with the elements of the SJPC Hot Work Safety Program (see Procedures Section).
RESPONSIBILITIES:	Develop, maintain, distribute, and provide oversight in accordance with all applicable federal and state regulations, and best industry practices. SJPC staff and supervisors have the responsibility and authority to halt any unsafe practices not in accordance with this policy. Departments- Comply with all policy and program elements.
PROCEDURES:	Any work involving; burning, welding, torch cutting, grinding where sparks are produced, soldering, or brazing

	in construction, maintenance and fabrication activities shall follow SJPC Hot Work Safety Program.
--	---

Scope and Application:

This program is designed to prevent injury and loss of property from fire or explosion as a result of hot work in all SJPC spaces, property and activities.

It covers; welding, brazing, soldering, heat treating, grinding, powder-actuated tools, hot riveting and all other similar applications producing a spark, flame, or heat.

This program does not cover use of: candles, laboratory activities, pyrotechnics or special effects, cooking equipment, electric soldering irons or torch-applied roofing (See NFPA 241).

All hot work performed by outside contractors shall be in conformance with NFPA 51B at a minimum.

Hot work operations in confined spaces require additional safeguards and are addressed in the SJPC Confined Spaces Policy.

Hot work on and near building systems and piping may require additional safeguards.

Definitions:

Competent Hot Work Supervisor (CHWS). For SJPC employees the CHWS shall have successfully completed competent person training and examination to be considered competent. For outside contractors the hot work supervisor shall be identified and the name provided to the project manager. The CHWS cannot be the hot work operator. Failure to properly adhere to SJPC Hot Work Procedures shall result in suspension of competent person authority and possible disciplinary action.

Designated Area. Permanent location designed for or approved by a CHWS for hot work operations to be performed regularly.

Hot Work. Any work involving welding, brazing, soldering, heat treating, grinding, powder-actuated tools, hot riveting and all other similar applications producing a spark, flame, or heat, or similar operations that is capable of initiating fires or explosions.

Hot Work Permit. A document issued by the SJPC and CHWS for the purpose of authorizing a specified activity.

Hot Work Operator. An individual designated by SJPC to perform hot work under the authorization of a CHWS.

Welding and Allied Processes. Those processes such as arc welding, oxy-fuel gas welding, open-flame soldering, brazing, thermal spraying, oxygen cutting and arc cutting.

Specific Responsibilities:

Competent Hot Work Supervisor (CHWS)

The CHWS is responsible for the safe operations of hot work activity under their supervision. These duties include:

- Establish permissible areas for hot work.
- Ensure that only approved apparatus, such as torches, manifolds, regulators and pressure reducing valves, are used.
- Ensure that all individuals involved in the hot work operations are familiar with SJPC Hot Work requirements.
- Ensure that all individuals involved in the hot work operations are trained in the safe operation of their equipment and the safe use of the process. These

individuals must have an awareness of the risks involved and understand the

emergency procedures in the event of a fire.

- Determine site-specific flammable materials, hazardous processes, or other potential fire hazards present or likely to be present in the work location.
- Ensure combustibles are protected from ignition by the following means:
 - Move the work to a location free from combustibles,
 - If the work cannot be moved, ensure the combustibles are moved to a safe distance or have the combustibles properly shielded against ignition,
 - Ensure hot work is scheduled such that operations that could expose flammables or combustibles to ignition do not occur during hot work operations.
 - **If any of these conditions cannot be met, then hot work must not be performed.**

- Determine that, fire protection and extinguishing equipment are properly located and readily available.

- Ensure sufficient local exhaust ventilation is provided to prevent accumulation of any smoke and fume.

- Ensure that a fire watch is posted at the site when:
 - Hot work is performed in a location where other than a minor fire might develop, or where the following conditions exist,
 - Combustible materials in building construction or contents are closer than 35 ft. to the point of hot work,
 - Combustible materials are more than 35 ft. away but are easily ignited by sparks.

- Wall or floor openings are within 35 feet and expose combustible materials in adjacent areas. This includes combustible materials concealed in walls or floors.
- Combustible materials are adjacent to the opposite side of partitions, walls, ceilings, or roofs and are likely to be ignited.

Where a fire watch is not required, the CHWS shall make a final inspection $\frac{1}{2}$ hour after the completion of hot work operations to detect and extinguish possible smoldering fires.

Hot Work Operator (HWO)

The hot work operator shall handle the equipment safely and perform work so as not to endanger lives and property. Specific duties include

- No hot work shall be conducted without specific written authorization from the CHWS via completion of the Hot Work Permit.
- The operator must cease hot work operations if unsafe conditions develop.
- The operator must notify the CHWS for reassessment of the situation in the event of suspected unsafe conditions or concerns expressed by affected persons.

Fire Watch:

The fire watch is an individual posted in specific circumstances, as described above. The function of the fire watch is to observe the hot work and monitor conditions to ensure that a fire or explosion does not occur as a result of the work performed. The fire watch is authorized to stop any unsafe operation or activity. Specific duties and responsibilities include:

- Watch for fires, smoldering material or other signs of combustion.
- Be aware of the inherent hazards of the work site and of the hot work.
- Ensure that safe conditions are maintained during hot work operations and stop the hot work operations if unsafe conditions develop.
- Have fire-extinguishing equipment readily available and be trained in its use.
- Extinguish fires when the fires are obviously within the capacity of the equipment available. If the fire is beyond the capacity of the equipment, sound the alarm immediately.
- Be familiar with the facilities and procedures for sounding an alarm in the event of a fire.
- A fire watch shall be maintained for at least $\frac{1}{2}$ hour after completion of hot work operations in order to detect and extinguish smoldering fires.
- More than one fire watch shall be required if combustible materials that could be ignited by the hot work operation cannot be directly observed by a single fire watch (e.g. in adjacent rooms where hot work is done on a common wall).

Hot Work Operational Requirements

Hot work is allowed only in areas that are or have been made fire-safe. Hot work may only be performed in either designated areas or permit-required areas, as defined by SJPC.

A designated area is a specific area designed or approved for such work, such as a maintenance shop or a detached outside location that is of noncombustible or fire-resistive construction, essentially free of combustible and flammable contents, and suitably segregated from adjacent areas.

A permit-required area is an area made fire-safe by removing or protecting combustibles from ignition sources.

Hot work is not allowed:

- In sprinklered buildings if the fire protection system is impaired
- In the presence of explosive atmospheres or potentially explosive atmospheres (e.g. on drums previously containing solvents)
- In explosive atmospheres that can develop in areas with an accumulation of combustible dusts (e.g. grain silos).

Hot Work Permit

Before hot work operations begin in a non-designated location, a completed hot work permit prepared by the CHWS is required. Based on local conditions, the CHWS must determine the length of the period, not to exceed 24 hours, for which the hot work permit is valid.

The following conditions must be confirmed by the CHWS before permitting the hot work to commence:

- Equipment to be used (e.g. welding equipment, shields, personal protective equipment, fire extinguishers) must be in satisfactory operating condition and in good repair.
- The floor must be swept clean for a radius of 35 ft. if combustible materials, such as paper or wood shavings are on the floor,
- Combustible floors (except wood on concrete) must be
 - kept wet or be covered with damp sand. (note: where floors have been wet down, personnel operating arc welding or cutting equipment shall be protected from possible shock)., or
 - be protected by noncombustible or fire-retardant shields.
- All combustible materials must be moved at least 35 ft. away from the hot work operation. If relocation is impractical, combustibles must be protected with fire-retardant covers, shields or curtains. Edges of covers at the floor must be tight to prevent sparks from going under them, including where several covers overlap when protecting a large pile.

- Openings or cracks in walls, floors, or ducts within 35 ft. of the site must be tightly covered with fire-retardant or noncombustible material to prevent the passage of sparks to adjacent areas.
- If hot work is done near walls, partitions, ceilings, or roofs of combustible construction, fire-retardant shields or guards must be provided to prevent ignition.
- If hot work is to be done on a wall, partition, ceiling, or roof, precautions shall be taken to prevent ignition of combustibles on the other side by relocating combustibles. If it is impractical to relocate combustibles, a fire watch on the opposite side from the work must be posted.
- Hot work must not be attempted on a partition, wall, ceiling, or roof that has a combustible covering or insulation, or on walls or partitions of combustible sandwich-type panel construction.
- Hot work that is performed on pipes or other metal that is in contact with combustible walls, partitions, ceilings, roofs, or other combustibles must not be undertaken if the work is close enough to cause ignition by conduction.
- Fully charged and operable fire extinguishers that are appropriate for the type of possible fire shall be available immediately at the work area. These extinguishers should be supplied by the group performing the hot work. The fire extinguishers normally located in a building are not considered to fulfill this requirement.
- If hot work is done in proximity to a sprinkler head, a wet rag shall be laid over the head and then removed at the conclusion of the welding or cutting operation. During hot work, special precautions shall be taken to avoid accidental operation of automatic fire detection or suppression systems (for example, special extinguishing systems or sprinklers).
- Nearby personnel must be suitably protected against heat, sparks, and slag.

Work Closeout:

- A fire watch shall be maintained for at least 30 minutes after completion of hot work operations in order to detect and extinguish smoldering fires.
- The CHWS shall inspect the job site 30 minutes following completion of hot work and close out the permit with the time and date of the final check.
- The completed Hot Work Permit shall be retained for 6 months following completion of the project.

SOUTH JERSEY PORT CORPORATION
